REPORT

TO THE CONTRIBUTORS TO THE PENNSYLVANIA HOSPITAL
AT THEIR ANNUAL MEETING 5TH Mo. (MAY) 1st, 1876.

In presenting to you their annual report the Managers desire to impress upon your memories the fact noticed in the annual report in 5th month (May), 1875, and again recurring with the experience of the year just closed, that the expenses of the Hospital for the Sick on Pine Street are greater in amount than all the income from the endowment funds of the Contributors and all receipts from pay patients in that branch of your Hospital.

The excess of expenses beyond receipts for the	
year ending in 5th month (May), 1875, was .	\$23,201 29
The excess for the year ending in 5th mo. (May),	
1876, was	12,983 29
Therefore in the past two years the expenses of	
the Pine Street Hospital alone have exceeded	
our whole income by the sum of	\$36,185 58

It may be proper to note that the Managers feel that much of that support which has hitherto been available for the suffering wounded and sick in your wards has been diverted into other channels, partially owing to the growth of the city with new beneficent enterprises making the construction of new buildings a necessity, and partially from an incorrect but widespread idea that the Pennsylvania Hospital is already liberally endowed.

For all new enterprises undertaken for the alleviation of man's distress, we wish every possible success that can be obtained from a generous and charitable public; but as in your institution every dollar that may be contributed is immediately applied to furnishing the means to bind up the wounds of the hurt, and to sustain and cure those afflicted by disease, we feel that we have a peculiar direct claim upon individual sympathy.

Our ability to aid is no longer equal to relieving the applicants at our doors, and to you we look for assistance which will enable your Hospital to retain the honorable position of never having refused to a proper patient free admission to our wards, which it is our purpose to continue to hold.

To increase our endowment and to provide for present deficiencies and future necessities, we entreat your benevolent contributions.

The total receipts from the Endowment Fund up	
to 5th month (May), 1876, were	\$42,944 62
Contributions to expenses	1,790 00
Received by Steward from pay patients, dona-	
tions, and other sources	10,160 88
	<hr/>
Total	\$54,895 50

The expenses of the Pine Street Hospital ending	
5th mo. 1876, were	\$62,666 22

The number of cases treated in the wards of the	
Hospital was	1,814
Of these there have been discharged	1,659

The accidental injuries treated within the year	
were	598

The patients now remaining in the Hospital are .	155
--	-----

The Out-patient Department, which has greatly relieved the wards of the Hospital, makes the following report of its work:—

Medical cases, new patients	869
Medical visits	1,754
Surgical cases, new patients	2,106
Surgical visits	11,358
Total new patients, medical and surgical	2,975
Total visits to Hospital, medical and surgical	13,112

This shows an increase over last year of 502 new patients, and of 4158 more visits to this Department.

The Contributors at their last annual meeting passed a resolution “that the incoming Board be requested to take such measures as they may deem expedient for immediately carrying out the proposed plan for enlarging the accommodations for the treatment of out-patients.” This resolution has been kept in view, but the restricted

means of the Hospital, which are not sufficient to enable it to maintain its present scale of usefulness, and other reasons, have caused us to postpone immediate action.

The present crowded state of the Out-patient Department and its great usefulness render the increase of its accommodations a matter of urgent necessity. The surgeons and physicians are oftentimes obliged to act under oppressive circumstances, patients having to be examined, and wounds treated and dressed in the presence of other applicants for relief.

A plan of a new building to take the place of the northeastern house near the Eighth Street entrance, has been prepared with careful consideration. It provides for an entirely new building, partially on the site of the house to be removed, but of greater extent; which will contain a new and more convenient reception room for cases of recent accidental injury, where patients can be examined, their wounds dressed, and from thence removed by underground communication with the main building and lifts to the upper wards; two suites of rooms for medical and surgical patients, comprising rooms for reception and treatment; and private rooms for the professional staff—the upper rooms being available for the usual purposes of the Hospital.

The Managers think this subject one that demands an earnest special appeal to the Contributors and the public for funds to give it a sure and successful result.

During the past year two free beds have been endowed, one by Maria E. Blanchard, who has paid the sum of \$5000 to maintain a free bed in The Pennsylvania Hospital to be denominated “the William A. Blanchard free bed,” thereby perpetuating the memory of her husband, a firm friend of the Institution: Eliza Freeman has also paid the sum of \$5000 to establish a free bed in The Pennsylvania Hospital for the Sick as a memorial of her son, to be denominated “the Warwick Bamfylde Freeman free bed.”

The bequests and donations announced to the Board of Managers have been as follows, viz.:—

Dr. JAMES H. HUTCHINSON	current expenses	\$100 00
Ex'ors of GEO. D. WETHERILL	permanent fund	500 00
JOHN E. CARTER	current expenses	100 00
JOHN EMBLEY	permanent fund	50 00
B. H. BARTOL	current expenses	50 00
JOHN ROBBINS		50 00
EDWIN R. COPE	current expenses	200 00

JAMES HOPKINS	\$100 00
W. BARTON HOPKINS, M.D.	40 00
W. K. SOWERS	50 00
ARTHUR V. MEIGS, M.D.	30 00
W. K. K. current expenses	10 00
ALEXANDER BIDDLE	500 00
MARY E. TURNPENNY Hospital for the Sick	50 00
A New England Lady, through Dr. HEWSON	50 00
A Lady Friend, for the Hospital for the Sick	500 00
JOHN S. BROWN, of Pittsburgh, to amusement fund for the Male Branch of the Department for the Insane	124 50

A legacy of JOHN H. JONES, of West Philadelphia, of 5,000 00
to be paid at the expiration of three years
after his decease to the Pennsylvania Hospital
in trust to keep the same safely and legally
invested, and to pay and apply the interest
and income thereof towards the support of the
Insane Asylum, &c. &c.

A bequest of PETER SEIGER by which his execu-
tors are authorized to sell sundry vacant lots
in the 18th and 25th Wards within a period of
three years, and out of the proceeds to pay to
the Contributors to the Pennsylvania Hospital
the sum of 4,000 00
to be devoted to extending and improving the
accommodations for the Insane, and in case the
proceeds of said lots should not be sufficient
to pay this and other legacies in full, the de-
ficiency to be made up out of the residue of the
estate.

A donation for the Out-patient Department, and
for altering the Lecture-room, from JAMES
HOPKINS 500 00

A bequest under the will of W. D. GLENN of 4,000 00

We also notice the payment of legacies mentioned in last year's
Report, viz.:—

From Estate of HENRY S. STOUT \$10,000 00

Executors of MARY D. BROWN:

Hospital for the Sick . \$10,000 00

Hospital for the Insane 20,000 00

The Executors of THOMAS SPARKS have paid to

the Hospital 1,900 00

This legacy, in pursuance with the purposes of the bequest, has supplied the Hospital with a new Zentmayer binocular microscope with eye pieces, &c., and a new 180° objective glass, at a cost of \$580.

It has also furnished new surgical instruments, and supplied the means of putting those in the Hospital in perfect order, at a cost of \$509 75.

The thorough examination of the surgical instruments has led to new rules for their preservation. D. W. Kolbe & Co. have in consequence been recognized as instrument makers to the Hospital, with the view of having all tools by which work is to be performed frequently examined by skilful artisans and kept in their proper places in perfect order for use.

The Managers are also advised of a legacy under the will of FREDERICK HARRIS, of Maracaibo, in Venezuela, to the Department for the Insane in West Philadelphia, of \$5000, for the purpose of increasing the income of the Institution and to improve the condition of the unfortunates dwelling therein, which is secured to be paid at a future day.

A complete file of the Public Ledger for twenty years has also been bequeathed to the Hospital.

Many improvements have been made in the Pine Street Hospital; slate floors have been placed in the kitchens, and all the wards have now been thoroughly repainted except the basement. The ventilation of the Hospital has been much improved by alterations made in the flues and discharge pipes, which have from time to time been reported to you. During the past year the subject of forced ventilation has been carefully considered, and a plan has been approved by which the fresh air from the exterior of the buildings will be forced, by a powerful fan driven by a steam engine, through the warm air pipes to the wards of the Hospital.

The Board hope that by this means they will be able to preserve at all times a pure atmosphere, at an even temperature, around the beds of the patients, and expect to have the machinery, now in process of construction under the supervision of John Sunderland, the former supervisor of the erection of the heating apparatus for the Department for the Insane, in operation by the 6th month (June).

The Pathologist and Curator reports that sixty new and valuable specimens have been added to the Hospital collection, and about thirty more are in course of preparation.

The lectures on Pathological Anatomy with post-mortem examinations and illustrations, have been continued, two courses having been given, one in the fall and winter, the other in the spring and summer.

Separate lectures have been given to the students of the Women's Medical College.

The Medical Board report that the Hospital has been remarkably free from what is called Hospital Contagion.

Female attendants have been employed in the Hospital with manifest improvement in the diet and general comfort of the patients.

The Board have under consideration the establishment of a training school for nurses, an undertaking which has met with success in foreign institutions, which they hope will be productive of good to the Hospital, and of more extended benefit to the city at large.

It is proper to acknowledge the gratitude of the Managers to the Committee of Ladies who have, during the past year, by their constant tender and considerate attention, cheered and comforted our unfortunate patients.

In the decease of our friend and associate, John J. Thompson, the Board of Managers was deprived of a thoughtful and prudent adviser, endeared to them by his gentle, amiable deportment, united with wisdom and firmness, which gave energy and stability to the action of the Board in matters of doubt.

Appropriate resolutions were passed and recorded upon their minutes expressive of esteem for their friend, and condolence with family affliction.

The Board have deemed it prudent to secure the services of Jonathan Richards by electing him to fill the position of Assistant Steward and Clerk in the Pine Street Hospital.

His long experience as Steward in the Department for the Insane it is believed will add greatly to the benefit of this (the Pine Street) Hospital. He will enter upon his duties as soon as he is able to bring to a close his relations with the general Government as Indian Agent.

Mary D. Sharpless resigned her position as Matron of the Pine Street Hospital after a service of thirty-two (32) years, zealously, humanely, and faithfully performed, to the benefit of the patients, and the prudent, economic, efficient interests of the Institution.

With a few general remarks in regard to the Department for the Insane, under the charge of the Physician-in-chief and Superintendent, Dr. Thomas S. Kirkbride, and his able Assistant in charge of the Department for Males, Dr. S. Preston Jones, we will end our report.

The details of the working of the Departments for the Insane are fully presented in the report of Dr. Kirkbride, which is placed before you. It shows that these Departments have been self-sustaining during the past year.

The total number of patients in both departments was 684.

Of these 356 were males,
328 " females.

268 were admitted during the past year, and 107 of those admitted during the year were discharged cured. The absolute necessity of removing a person afflicted with mental disease from private confinement, and invoking the aid of institutions planned for the purpose of treatment with as little restraint of personal pleasure or liberty as is practicable, seems to be demonstrated by this result.

51 free patients have also been maintained at a cost of \$23,700, in addition to a large number paying less than the average cost for maintenance.

With thankfulness to Divine Providence, who has permitted us to bring to a successful close another year of usefulness to the sick and afflicted from the means furnished by your charitable contributions, we present this report.

Signed by direction and on behalf of the Board of Managers.

WILLIAM BIDDLE, *President.*

BENJ. H. SHOEMAKER, *Secretary.*
